

AFRIKA HUNT

“ *Hunting the dark African continent has always been dangerous and exiting for most hunters worldwide, and something that every hunter has to experience before his last hunting days. We offer a very pleasant and professional hunting experience in South Africa as well as some of the neighbouring countries. Our hunting trips vary from bird hunts to plains game and the big five.*

I will personally conduct the hunts and oversee the success of your trip. I have over 20 years of hunting experience and have been a professional hunter since 2001. I have guided numerous overseas clients on very successful and pleasant hunts, and I'm looking forward to hunting with you! ”

Africa awaits you...
